Profile

Computer Science graduate with a strong foundation in Python, SQL, C#, Java, and web development. Hands-on experience working on academic projects involving Python, machine learning, and Flask. Familiar with database concepts and software development fundamentals. A quick learner with a strong interest in Software development and a willingness to learn and contribute in a professional environment.

Education

2021 – 2025

Bachelor of Technology- Computer Science and Engineering
APJ Abdul Kalam Technological University, College of Engineering Perumon - Perumon,Kollam
•9.64 CGPA

Projects

2025

Malware Detection and Classification Using CNN
Technologies : Python, TensorFlow/Keras, Flask, HTML, CSS, JavaScript
- Developed a CNN-based application to detect and classify malware from binary files converted into grayscale images.
- Built a Flask-based web interface to process uploaded files and display classification results with confidence scores.
- Integrated the trained machine-learning model with the web application for real-time prediction.

2024

Money Detect – Currency Detection Application
Technologies: Python, Flutter, TensorFlow
- Developed a machine-learning-based application to help visually impaired users identify and distinguish currency.
- Implemented currency recognition functionality using a trained machine-learning model.
- Designed the application with a focus on simple and accessible user interaction.

Technical Skills

- **Programming :** Python, C#, SQL, Java
- **Web Development :** HTML, CSS, Javascript, Bootstrap
- **Database:** SQL Server, ADO.NET, SQL Queries
- **Concepts:** Object-Oriented Programming(OOP), Database Management, CRUD Operations.
- **Machine Learning:** TensorFlow, Keras, CNN
- **Tools :** Git, GitHub, Visual Studio, Jupyter Notebook, Visual Studio Code

Soft Skills

- Problem-solving and analytical thinking
- Strong attention to detail and quality-driven
- Effective communicator and collaborative team player
- Strong willingness to learn and adapt
- Organized, calm under pressure, and good time management

Professional Training

Present
Trivandrum, Kerala

ASP.NET Full Stack Development Training
Luminar Technolab
Training in: C#, OOP, SQL Server, ADO.NET , ASP.NET Web Forms, ASP.NET MVC, ASP.NET Core, Windows Forms, HTML, CSS, Bootstrap, JavaScript, jQuery, TypeScript, AngularJS, Git, GitHub, database management, CRUD operations, state management, authentication, authorization, and web application development.

Certifications

May 2026 — **Data Analytics Job Simulation – Deloitte (Forage)**
- Performed data analysis tasks simulating real business scenarios
- Applied analytical thinking to interpret data and support decision-making
- Explored concepts in forensic technology and data-driven insights

November 2025 — **IELTS (International English Language Testing System)** — Overall Band **8.0**

October 2024 — **NPTEL Online Certification – Ethical Hacking**

April 2023 — **NPTEL Online Certification – Problem Solving Through Programming in C**

Organisations

2023 – 2024 — **Computer Society of India – Volunteer**
- Assisted the core committee in planning and conducting 5+ technical workshops and seminars, driving active student participation.
- Coordinated event logistics and communication, ensuring seamless operations and positive participant experience.

Languages

English — Fluent

Malayalam — Native/Bilingual

German — Conversational
